Dear Sirs

Lower Aire Flood Risk Management Strategy

Thank you for your consultation response relating to the above. During the course of collating the responses following the public consultation period, we found a number of similar questions being asked. We have taken the approach of providing answers to common themes and questions relating to the Strategy, to share with all of our consultees. You can find this on the enclosed FAQ sheet provided. Although some queries may relate to specific locations, the principle is also relevant and applicable to other locations within the strategy.

I trust this will help further your understanding of the strategy, although if you feel there are still some specific queries that haven't been addressed, please feel free to get in touch.

Yours faithfully

Tim Cobb
